Our Results

A toolkit of 10 lesson plans in 10 different lessons in 5 languages
free to be used by every teacher! (greenworks.iake.gr)

Objectives:

- To educate students about climate change and start a recycling program, or energy and water conservation project for our students;
- A Teachers' Guide to Climate Education
- A Memorial forest of the project in each partner country.
- To understand the role of citizens, local communities and non-profit environmental organizations in protecting and conserving natural resources
